

PAVAN VENU GOPAL

Fund Accountant | Finance Professional

+353 83 007 2861 | pavanvgopal06@gmail.com | linkedin.com/in/pavan-venu-gopal-22bb6631a | Cork, Ireland

PROFESSIONAL SUMMARY

I'm a fund accountant with two years of experience across India and Ireland, where I've handled NAV calculation, IFRS reconciliations, and investor reporting for portfolios of 4 to 8 funds. Alongside an MSc in Corporate Finance from UCC, I'm working my way through the ACCA qualification. Right now I'm in a regulated B2B role in Cork, clearing 70+ business accounts a week with KYC checks on every one, which keeps my compliance and reconciliation skills sharp. I'm based in Ireland with full work authorisation and can start straight away.

CORE COMPETENCIES

Fund Accounting	NAV calculation · transaction processing · fund reconciliations · investor & regulatory reporting (IFRS / GAAP)
Financial Reporting	Financial statement preparation · MIS reporting & variance analysis · budgeting & forecasting · year-end accounts
Compliance	Regulatory reporting · KYC verification · internal control awareness · AML awareness
Financial Modelling	DCF & DDM models · sensitivity analysis · equity benchmarking · peer multiples (EV/EBITDA, P/E, P/BV)
Technology	Advanced Excel (Pivot Tables, VLOOKUP, financial modelling) · SAP · Oracle CRM · JIRA · MS Office 365
Qualifications	ACCA (pursuing) · Bloomberg Market Concepts · MOS Excel Expert (Microsoft)

PROFESSIONAL EXPERIENCE

Financial Services Advisor · Uisce Éireann (Irish Water) · Ireland April 2026 – Present

- Managed 70+ business account queries weekly (B2B) via Oracle CRM, sustaining full SLA compliance in a regulated environment.
- Verified business client identity through mandatory KYC checks on 100% of interactions, locking in full regulatory compliance before any account data was accessed.
- Traced billing discrepancies and payment irregularities to source by cross-referencing transaction histories on Oracle CRM, clearing every flagged case with fund-accounting-grade accuracy.
- Managed business payment processing and structured arrangements through internal systems, sustaining uninterrupted continuity across the business account base.
- Escalated complex disputes with complete case documentation, preserving a full audit trail across 100% of accounts handled.

Fund Accountant · Vega Management Private Limited · India July 2023 – August 2024

- Calculated NAV for 4–8 fund portfolios using standard fund accounting systems, delivering accurate valuations on combined AUM of approximately ₹100–300 Cr.
- Balanced transaction and position records using IFRS-compliant fund accounting processes, driving discrepancies toward zero across every reporting cycle.
- Assembled financial statements and year-end accounts for multiple fund structures, resolving auditor queries within a 3–5 day turnaround.
- Delivered investor and regulatory reports on a monthly and quarterly cycle, coordinating with fund managers and legal counsel to hit 100% deadline compliance across all mandates.
- Untangled legacy data during new fund onboarding using structured data-matching techniques, accelerating month-end close efficiency.

FP&A Articleship · R&A Private Limited · India April 2022 – May 2023

- Built budgeting and forecasting models for under 5 business units using SAP, managing individual budgets of ₹1–5 Cr.
- Diagnosed budget-to-actual variances using Excel and SAP data consolidation, lifting forecast accuracy by ~5% over the engagement.
- Compiled MIS reports on a monthly and quarterly cycle using SAP-consolidated data, covering P&L and balance sheet performance across all supported business units.

- Refined budget assumptions and forecast models in Excel and SAP, tightening forecast-to-actual variance across reporting periods.

EDUCATION

MSc in Finance (Corporate Finance) — 2:1 • University College Cork • Cork, Ireland 2024 – 2025

- Key modules: Financial Analysis & Valuation, Risk Management, Regulatory Compliance, Corporate Finance Theory.
- Evaluated financial performance across 40+ multinational companies using structured benchmarking methods, producing comparative reports graded at merit level.

BCom — Accountancy & Finance — CGPA: 8.92/10 • St Francis College • India 2020 – 2023

KEY PROJECTS

Financial Modelling & Equity Valuation (DCF / DDM)

- Constructed multi-scenario DCF and DDM valuation models in Excel, pricing listed equities across consumer and industrial sectors.
- Stress-tested valuation assumptions across discount rate, revenue growth, and margin inputs in Excel, producing a range assessed at distinction level.
- Benchmarked peer equities using EV/EBITDA, P/E, and P/BV multiples in Excel, presenting output in structured equity-research format.
